

# Ms. Vallarelli's February Newsletter

Dear Parents,

Month one of 2023 is in the books and month two is on its way! We cannot believe that we are in the second half of the school year! The next few months will be focused on a lot of fine motor work, number, letters, and fun themes. Hopefully Punxsutawney Phil will give us some good news of warmer weather in our near future!

Here's a glimpse of our January highlights:

Grandparents/VIP Day: We had so much fun celebrating with everyone's grandparents and special person. We hope that this day will be cherished and remembered always.

Arctic theme: We spent SO much time talking about the Arctic. We learned a couple of big vocabulary words (like camouflage), different types of animals live in the arctic, and did a science experiment to show why blubber is so important!

This month, love is in the air! For first part of the month we will be indulged in all things Valentine's Day related. We will set up a mini post office with all the supplies needed to make letters for their loved ones! We will also have a few other themes which I have created fun, hands-on activities for the kiddos.

Here are the themes for February:

- Dental Health
- Valentine's Day
- Nursery Rhymes

Here are some important dates for the month of February:

- 2/1 Princess/Superhero Day
- 2/9 Football Jersey Day
- 2/10 NO SCHOOL
- 2/14 Valentines Day
- 2/20 - 2/24 Mid-Winter Break
- 2/27 School resumes

With love,

Ms. Vallarelli, Mrs. Elvia, and Ms. Meghan
