

June Newsletter

Dear Parents,

We just wanted to take a moment to tell you how much we enjoyed having your children this year.

We cannot believe the year has gone by so fast! It seems only yesterday we were making apples and pumpkins! Your children have worked very hard this year and know so much more than they did when they entered 4U/A in September. We have tried to give them a strong academic foundation, while having a lot of fun, too! It is very rewarding for us to see your children progress and grow, so please come back to visit us.

Thank you for letting us be a part of your child's life for the past year. It was our privilege to do so.
